John Lawver, Manager
Gettysburg Borough
59 East Middle Street
Gettysburg, PA 17325

Dear Mr. Lawver,

The proposal to develop a bicycle plan for Gettysburg is an innovative approach to relieve traffic and energy consumption and to encourage fitness in the Borough. It also provides a safer venue for bicycle traffic than we currently have on the main borough streets. Gettysburg College supports the joint effort of the Borough and Healthy Adams Bicycle/Pedestrian, Inc. to bring this proposal to fruition.

I am sure that many Gettysburg students, faculty, and staff would welcome the opportunity to make their way safely around town via bicycle, and I look forward to hearing about the progress on this project.

Sincerely,

Katherine Haley Will
President
